Fictional insurance paperwork generated for file-parsing tests. No policy exists, no cover is provided, and the insurer, broker and claim references are invented.

What happened

During the lighting repair recorded as work order WO-06 on 6 August 2026, water escaped from a supply pipe above the ceiling void at PROP-6 and damaged the retail fit-out below. The completion inspection for that work order is recorded as follow-up rather than pass.

Immediate action taken

The supply was isolated the same day, the affected area was dried and made safe, and the tenant was moved to the adjoining unit while the fit-out is replaced.
