

Certificate of Conformance COC-2026-0001

Pine Assembly Workshop, fictional certificate for parser testing

Certificate of conformance	COC-2026-0001
Supplier	Pine Assembly Workshop, Suite 4, Pine Assembly Workshop Building, 14 Example Way, Sample City, ZZ4 4ZZ
Customer	Fictional Import Partner Ltd
Part	DESK Desktop kit
Quantity certified	2
Work order	BUILD-1
Lot	LOT-2026-0912
Drawing	DRW-LEG-002 revision C
Inspection report	INS-2026-0001
Nonconformances	2, both on individual legs replaced before assembly
Date of issue	2026-09-10

Fictional manufacturing and quality records generated for file-parsing tests. No part was made, no measurement was taken, and the drawing, lot and certificate references are invented.

Statement of conformance

The supplier certifies that the 2 units of DESK released under work order BUILD-1 and lot LOT-2026-0912 conform to DRW-LEG-002 revision C and to the purchase order requirements, and that the records supporting this certificate are held for seven years.

Evidence

Evidence	Reference	Result
Inspection report	INS-2026-0001	23 of 25 readings inside limits
Nonconformance register	NCR-2026-0001;NCR-2026-0002	2 open, 2 legs quarantined and replaced
Gauge calibration	GA-01;GA-02;GA-03;GA-04;GA-05	all 5 gauges in calibration on the inspection date
Material certificate	MC-2026-0001	mill certificate held for the leg stock
Work order cost	BUILD-1	80.00 against a standard of 80.00

What this certificate does not say

The 2 nonconformances are recorded rather than hidden. They affect 2 legs that were quarantined and replaced before assembly, so no nonconforming part is in the certified units. A certificate that claimed no nonconformance occurred would contradict the inspection report in the same directory.
